

What Projects Are Included In This Referendum?

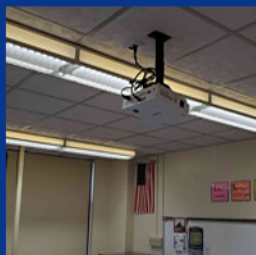

While the entire proposed scope is listed inside this brochure, our 2021 Capital Project will address three major categories in need of upgrades; Maintenance, Energy Savings, and Curriculum.

Over the years, The Deposit Central School District has done a remarkable job maintaining the community's facilities. In order to protect the community's investment, there are necessary upkeep items that can only be addressed through a Capital Project, which will receive building aid from NYSED.

Energy savings is a great way for the School District to save the tax payer some money. An LED lighting upgrade is planned to greatly reduce our energy consumption at the High School.

Here at Deposit, our students are very fortunate to be instructed by a group of very talented and dedicated teachers. However, with changing technologies, some of our teaching spaces are outdated and have begun to limit the opportunities afforded to our students.

How Was The Scope Of Work Determined?

For the past few years, a Project Committee comprised of Board members, administrators, staff, community members, and parents toured and analyzed the needs of each school building. A comprehensive list of potential projects was generated based on all of the information that was gathered. This list of potential projects was combined with the results of a five-year Building Conditions Survey to develop the proposed scope of work outlined in this brochure.

How Will This Affect The Residents of Deposit?

Elementary School	\$1,454,700
High School	\$5,988,650
Bus Garage	\$178,700
Total Referendum	\$7,622,050

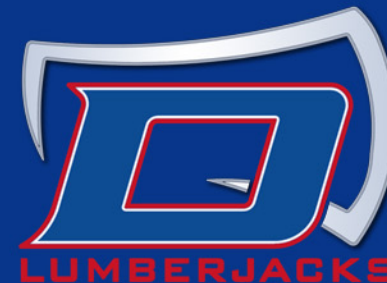

NO ADDITIONAL TAX IMPACT

Because of careful planning, the District is able to maximize state aid and use capital reserve funds to complete this project without raising additional taxes.
