### Report on the Audit of the Financial Statements

#### Opinions

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Deposit Central School District (the School District) as of and for the year ended June 30, 2022, and the related notes to the financial statements, which collectively comprise the School District's basic financial statements as listed in the Table of Contents.

In our opinion, the accompanying financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the School District, as of June 30, 2022, and the respective changes in financial position thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

#### Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States (*Government Auditing Standards*). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the School District and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

#### Emphasis of a Matter

During the year ended June 30, 2022, the School District adopted Government Accounting Standards Board (GASB) Statement No. 87, "Leases." As discussed in Note 16 to the financial statements, net position as of June 30, 2021 for the governmental activities was restated to reflect this change in accounting principle. Our opinion is not modified with respect to this matter.

## **Responsibilities of Management for the Financial Statements**

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the School District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

## **Auditors' Responsibilities for the Audit of the Financial Statements**

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the School District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the School District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

### **Required Supplementary Information**

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis; budgetary comparison schedules; the Schedules of School District's Contributions - NYSLRS and NYSTRS Pension Plans; the Schedules of the School District's Proportionate Share of the Net Pension (Asset)/Liability; Schedule of Changes in the District's Total OPEB Liability and Related Ratios; and related notes be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with GAAS, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

### **Supplementary Information**

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the School District's basic financial statements. The Schedules of Change from Adopted Budget to Final Budget and the Real Property Tax Limit; Schedule of Project Expenditures - Capital Projects Fund; Schedule of Net Investment in Capital Assets; Balance Sheet - Non-Major Governmental Funds, Statement of Revenues, Expenditures, and Changes in Fund Balance - Non-Major Governmental Funds (supplementary information) and Schedule of Expenditures of Federal Awards, as required by Title 2 U.S. *Code of Federal Regulations* (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with GAAS. In our opinion, the supplementary information and the Schedule of Expenditures of Federal Awards are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

**Other Reporting Required by *Government Auditing Standards***

In accordance with *Government Auditing Standards*, we have also issued our report dated October 13, 2022, on our consideration of the School District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the School District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the School District's internal control over financial reporting and compliance.

Respectfully submitted,

## **MANAGEMENT'S DISCUSSION AND ANALYSIS JUNE 30, 2022**

The following is a discussion and analysis of the School District's financial performance for the fiscal year ended June 30, 2022. This section is a summary of the School District's financial activities based on currently known facts, decisions, or conditions. It is also based on both the District-wide and fund-based financial statements. The results of the current year are discussed in comparison with the prior year, with an emphasis placed on the current year. The Management's Discussion and Analysis (MD&A) section is only an introduction and should be read in conjunction with the School District's financial statements, which immediately follow this section.

### **FINANCIAL HIGHLIGHTS**

- Total revenues exceeded expenses by \$1,562,198 in 2022 compared to expenses exceeding revenues in the amount of \$1,434,322 in 2021.
- Liabilities and deferred inflows of resources of the School District exceeded its assets and deferred outflows of resources at June 30, 2022 by \$27,101,759 (net position deficit), largely due to other postemployment benefits liability of \$46,863,144.
- During 2022, the School District implemented Governmental Accounting Standards Board (GASB) Statement No. 87, "Leases," which establishes a single model for lease accounting based on the foundational principle that leases are financings of the right to use an underlying asset. Due to the implementation, the School District restated its beginning net deficit by \$228,901.
- The General Fund budgeted expenditures were underspent by \$1,981,813, while revenues were more than estimated by \$391,305.
- The School District invested \$983,752 in capital assets. Depreciation and amortization expenses totaled \$985,001 and \$86,559, respectively.
- The School District's total debt obligations decreased \$840,760 during the current year mainly due to principal payments on long-term debt.
- Unassigned fund balance in the General Fund showed an increase in 2022, from \$703,177 to \$703,316. Total General Fund fund balance, including reserves, was \$5,184,863 at June 30, 2022, compared to \$3,731,240 at June 30, 2021.

### **OVERVIEW OF THE FINANCIAL STATEMENTS**

This annual report consists of three parts: MD&A (this section), the basic financial statements, and supplementary information, both required and not required. The basic financial statements include two kinds of statements that present different views of the School District.

- The first two statements are District-wide financial statements that provide both short-term and long-term information about the School District's overall financial status.
- The remaining statements are Governmental Fund financial statements that focus on individual parts of the School District, reporting the School District's operations in greater detail than the District-wide financial statements. The Governmental Fund financial statements concentrate on the School District's most significant funds with all other Non-Major Funds listed in total in one column.

# ***DEPOSIT CENTRAL SCHOOL DISTRICT***

## **MANAGEMENT'S DISCUSSION AND ANALYSIS JUNE 30, 2022**

The financial statements also include notes that explain some of the information in the statements and provide more detailed data. The statements are followed by a section of required supplementary information that further explains and supports the financial statements with a comparison of the School District's budget for the year, a Schedule of Changes in the School District's Total Other Post-Employment Benefits (OPEB) Liability and Related Ratios, and information related to the School District's pension obligations.

### **District-Wide Financial Statements**

The District-wide financial statements report information about the School District as a whole using accounting methods similar to those used by private-sector companies. The Statement of Net Position includes all of the School District's assets, deferred outflows of resources, liabilities, and deferred inflows of resources. All of the current year's revenues and expenses are accounted for in the Statement of Activities regardless of when cash is received or paid.

The two District-wide financial statements report the School District's net position and how it has changed. Net position (the difference between the School District's assets, deferred outflows of resources, liabilities, and deferred inflows of resources) is one way to measure the School District's financial health or position. Over time, increases or decreases in the School District's net position are an indicator of whether its financial position is improving or deteriorating, respectively.

To assess the School District's overall health, one needs to consider additional nonfinancial factors such as changes in the School District's property tax base and the condition of school buildings and other facilities.

In the District-wide financial statements, the School District's activities are shown as Governmental Activities. Most of the School District's basic services are included here, such as regular and special education, transportation, and administration. Property taxes and state formula aid finance most of these activities.

### **Governmental Fund Financial Statements**

The Governmental Fund financial statements provide more detailed information about the School District's funds, focusing on its most significant or "Major" Funds, not on the School District as a whole. Funds are accounting devices the School District uses to keep track of specific sources of funding and spending on particular programs. The School District has two kinds of funds:

- **Governmental Funds:** Most of the School District's basic services are included in Governmental Funds, which generally focus on (1) how cash and other financial assets that can readily be converted to cash flow in and out; and (2) the balances left at year end that are available for spending. Consequently, the Governmental Funds statements provide a detailed short-term view that helps one determine whether there are more or fewer financial resources that can be spent in the near future to finance the School District's programs. Because this information does not encompass the additional long-term focus of the District-wide financial statements, additional information following the Governmental Funds statements explains the relationship (or differences) between them.

# **DEPOSIT CENTRAL SCHOOL DISTRICT**

## **MANAGEMENT'S DISCUSSION AND ANALYSIS JUNE 30, 2022**

- **Fiduciary Funds:** The School District is the trustee, or fiduciary, for assets that belong to others, such as the Student Activities Funds. The School District is responsible for ensuring that the assets reported in these funds are used only for their intended purposes and by those to whom the assets belong. The School District excludes these activities from the District-wide financial statements because it cannot use these assets to finance its operations.

### **FINANCIAL ANALYSIS OF THE SCHOOL DISTRICT AS A WHOLE**

The School District's combined net deficit for fiscal year ended June 30, 2022 increased. Our following analysis focuses on the net position (*Figure 1*) and changes in net position (*Figure 2*) of the School District's Governmental Activities.

*Figure 1*

<i>Condensed Statement of Net Position</i>	<i>Governmental Activities and Total School District</i>		<i>Total Dollar Change</i>
	<i>2022</i>	<i>2021</i>	
<i>Current Assets</i>	\$ 6,246,498	\$ 6,844,348	\$ (597,850)

<b><i>Total Deferred Outflows of Resources</i></b>	<b>11,117,978</b>	<b>13,522,458</b>	<b>(2,404,480)</b>
<i>Current Liabilities</i>	2,504,063	3,869,486	(1,365,423)
<i>Noncurrent Liabilities</i>	53,253,746	63,140,654	(9,886,908)
<b><i>Total Liabilities</i></b>	<b>55,757,809</b>	<b>67,010,140</b>	<b>(11,252,331)</b>
<b><i>Total Deferred Inflows of Resources</i></b>	<b>18,256,058</b>	<b>5,420,889</b>	<b>12,835,169</b>
<i>Net Investment in Capital Assets</i>	13,846,661	13,244,009	602,652
<i>Restricted</i>	7,893,541	5,687,856	2,205,685
<i>Unrestricted</i>	(48,841,961)	(47,595,822)	(1,246,139)
<b><i>Total Net Position (Deficit)</i></b>	<b>\$ (27,101,759)</b>	<b>\$ (28,663,957)</b>	<b>\$ 1,562,198</b>

Total assets increased 18.4%. This change stems from increases in the School District's noncurrent restricted cash through appropriation of capital reserves and the School District's proportionate share of the net pension assets of the NYSTRS and NYSLRS pension plans of \$4,937,335, in comparison to the prior year net pension liabilities for both plans.

Deferred outflows of resources decreased 17.8% and deferred inflows of resources increased 236.8%. The change in deferred outflows and deferred inflows of resources is the result of changes in actuarial assumptions related to NYSTRS and NYSLRS pension plans, as well as changes in actuarial assumptions for the other postemployment benefits (OPEB) plan.

# **DEPOSIT CENTRAL SCHOOL DISTRICT**

## **MANAGEMENT'S DISCUSSION AND ANALYSIS JUNE 30, 2022**

Total liabilities decreased 16.8%. This change stems primarily from the conversion of the School District's proportionate share of the NYSTRS and NYSLRS net pension liability in the prior year to a net pension asset in the current year, and decreases in the School District's OPEB liability.

The School District experienced an increase in net investment in capital assets, primarily due to a reduction in debt offset by depreciation and amortization expenses exceeding capital outlay. Restricted net position increased 38.8%, primarily due to Board-approved additions to reserve accounts. Finally, unrestricted net deficit increased 2.6%. The increases in net investment in capital assets and restricted net assets contributed to the overall decrease in the net unrestricted deficit of 5.5%.

Our analysis in *Figure 2* considers the operations of the School District's activities.

<b>CHANGE IN NET POSITION</b>	<b>\$ 1,562,198</b>	<b>\$ (1,434,322)</b>	<b>\$ 2,996,520</b>

Total revenues for the School District's Governmental Activities increased 6.7%, while total expenses decreased 9.6%. The increase in revenue is mostly due to increases in operating grants and contributions due to new funding through the Education Stabilization Fund.

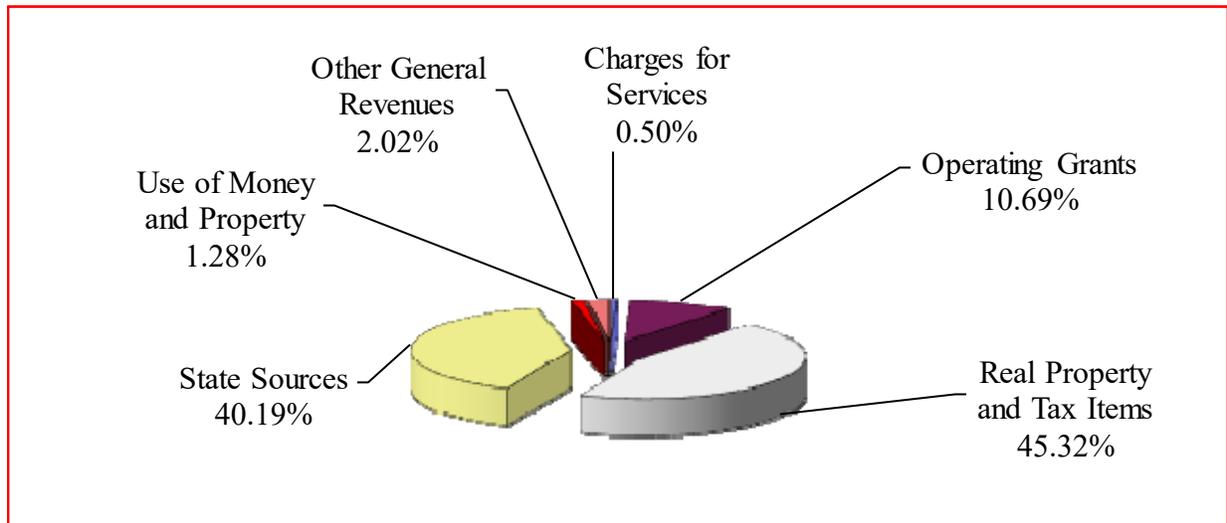

The decrease in expenses is primarily due to a decrease in the School District's net OPEB liability as well as a reduction in pension expense resulting from the changes in the School District's net pension obligations discussed in *Figure 1*.

### **FINANCIAL ANALYSIS OF THE SCHOOL DISTRICT'S FUNDS**

*Figure 7* shows the changes in total fund balances for the year for the School District's Governmental Funds. Total fund balances increased by 36.8%. This is largely attributable to the issuance of debt in the Capital Projects Fund, and the excess of revenues over expenditures in the General Fund.

### **GENERAL FUND BUDGETARY HIGHLIGHTS**

Over the course of the year, the Board of Education approved budgetary transfers that revised the School District's budget line items. The budget was amended during the fiscal year with donations.

The School District received more revenue than budgeted; primarily from federal sources where there was no amount budgeted for in the current year. Expenditures were less than budget (with carryover encumbrances) by \$1,981,813. This is primarily due to lower than expected instruction costs related to the change to remote learning.

### **CAPITAL ASSETS AND DEBT ADMINISTRATION**

#### **Capital Assets**

At the end of June 30, 2022, the School District had invested in a broad range of capital assets totaling \$35,253,214, offset by accumulated depreciation of \$14,702,808. In addition, the School District reported intangible lease assets of \$432,794, offset by accumulated amortization of \$290,452. Total capital assets, net, decreased by 1.0% as shown in Figure 9.

## **MANAGEMENT'S DISCUSSION AND ANALYSIS JUNE 30, 2022**

### **FACTORS BEARING ON THE SCHOOL DISTRICT'S FUTURE**

- In May of 2022, the voters approved the proposed 2022-2023 School District budget in the amount of \$17,788,865, with a 1.25% increase in the tax levy, which was less than the maximum allowed (1.50%) under the property tax legislation.
- Also in May of 2022, the voters approved the purchase of two school buses for the School District at a total not to exceed \$208,000.
- The School District has received \$593,661 in CCRSA stimulus funds, payable from 3/13/20 to 9/30/23. The School District also received \$1,332,402 in ARP stimulus funds, payable from 3/13/20 to 9/30/24. The funds will be used to address learning loss and one time expenditures that will not require the use of future budget funding.
- As a result of the continued rise in health care costs, the School District has moved their retirees to a better health plan at a lower cost, which has resulted in a savings of \$200,000.

## **RECONCILIATION OF GOVERNMENTAL FUNDS STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCE TO THE STATEMENT OF ACTIVITIES FOR THE YEAR ENDED JUNE 30, 2022**

**Net Change in Fund Balances - Total Governmental Funds** **\$ 2,271,938**

Amounts reported for Governmental Activities in the Statement of Activities are different because:

Governmental Funds report capital outlay as expenditures. However, in the Statement of Activities, the cost of those assets is allocated over their estimated useful lives as depreciation/amortization expense. This is the amount by which capital outlay exceeded depreciation/amortization expense and disposals.

Capital Outlay	\$ 983,752	
Net Book Value of Disposed Assets	(127,338)	
Depreciation Expense	(985,001)	
Amortization Expense	(86,559)	(215,146)

Bond proceeds provide current financial resources to Governmental Funds, but issuing debt increases long-term liabilities in the Statement of Net Position. Repayment of bond principal is an expenditure in the Governmental Funds, but the repayment reduces long-term liabilities in the Statement of Net Position.

Proceeds of Obligations	\$ (1,335,000)	
Repayment of Bond Principal	630,000	
Amortization of Bond Premium	56,276	(648,724)

Long-term liabilities, such as those associated with employee benefits, and compensated absences are reported in the Statement of Net Position. Therefore, expenses which result in an (increase) or decrease in these long-term liabilities are not reflected in the Governmental Fund financial statements.

Other Postemployment Benefits Liability	\$ (510,120)	
Compensated Absences	(170,413)	(680,533)

Some expenses reported in the Statement of Activities do not require the use of current financial resources and, therefore, are not reported as expenditures in Governmental Funds.

Change in Accrued Interest Payable	812
------------------------------------	-----

Changes in the School District's proportionate share of net pension (assets)/liabilities have no effect on current financial resources and therefore are not reported in the Governmental Funds. In addition, changes in the School District's deferred outflows and deferred inflows of resources related to pensions do not affect current financial resources and are also not reported in the Governmental Funds.

## **NOTES TO FINANCIAL STATEMENTS JUNE 30, 2022**

### ***Note 1* Summary of Significant Accounting Policies**

The accompanying financial statements of Deposit Central School District (the School District) have been prepared in conformity with U.S. generally accepted accounting principles (U.S. GAAP) for governments, as prescribed by the Governmental Accounting Standards Board (GASB), which is the accepted standard-setting body for establishing governmental accounting and financial reporting principles.

#### **Reporting Entity**

Essentially, the primary function of the School District is to provide education for pupils. Services such as transportation of pupils, administration, finance, and plant maintenance support the primary function.

The financial reporting entity consists of the following, as defined by GASB Statement No. 14, "The Financial Reporting Entity," as amended:

- The primary government, which is the School District;
- Organizations for which the primary government is financially accountable; and
- Other organizations for which the nature and significance of their relationship with the primary government are such that exclusion would cause the reporting entity's basic financial statements to be misleading or incomplete.

The accompanying financial statements present the activities of the School District. The School District is not a component unit of another reporting entity.

The decision to include a potential component unit in the School District's reporting entity is based on several criteria including legal standing, fiscal dependency, and financial accountability. Based on the application of these criteria, the Extraclassroom Activity Funds are included in the School District's reporting entity.

The Extraclassroom Activity Funds of the School District represent funds of the students of the School District. The Board of Education exercises general oversight of these funds. The Extraclassroom Activity Funds are independent of the School District with respect to its financial transactions and the designation of student management. While the Extraclassroom Activity Funds are not considered a component unit of the School District, due to the School District's fiduciary responsibility in relation to the Funds, they are reported in the School District's Custodial Fund. Separate audited financial statements (cash basis) of the Extraclassroom Activity Funds can be obtained from the School District's business office, located at 171 Second Street, Deposit, New York 13754.

### ***Note 1* Summary of Significant Accounting Policies - Continued**

#### **Joint Venture**

The School District is one of 15 component school districts in the Broome-Tioga Board of Cooperative Educational Services (BOCES). A BOCES is a voluntary, cooperative association of school districts in a geographic area that share planning, services, and programs which provide educational and support activities.

BOCES are organized under §1950 of the Education Law. A BOCES Board is considered a corporate body. All BOCES property is held by the BOCES Board as a corporation (§1950(6)). In addition, BOCES Boards also are considered municipal corporations to permit them to contract with other municipalities on a cooperative basis under §119-n(a) of the General Municipal Law (GML).

A BOCES budget is comprised of separate budgets for administrative, program, and capital costs. Each component school district's share of administrative and capital cost is determined by resident public school district enrollment as defined in Education Law §1950(4)(b)(7).

There is no authority or process by which a school district can terminate its status as a BOCES component. In addition, component school districts pay tuition or a service fee for programs in which its students participate. Members of a BOCES Board are nominated and elected by their component member boards in accordance with provisions of §1950 of the Education Law.

#### **Basis of Presentation - District-Wide Financial Statements**

The Statement of Net Position and the Statement of Activities present financial information about the School District's Governmental Activities. These statements include the financial activities of the overall government in its entirety, except those that are fiduciary. Eliminations have been made to minimize the double counting of internal transactions. Governmental Activities generally are financed through taxes, state aid, intergovernmental revenues, and other exchange and nonexchange transactions. Operating grants include operating-specific and discretionary (either operating or capital) grants, while the capital grants column reflects capital-specific grants.

The Statement of Activities presents a comparison between direct expenses and program revenues for each function of the School District's Governmental Activities. Direct expenses are those that are specifically associated with and are clearly identifiable to a particular function. Indirect expenses relate to the administration and support of the School District's programs, including personnel, overall administration, and finance. Employee benefits are allocated to functional expenses as a percentage of related payroll expense. Program revenues include charges paid by the recipients of goods or services offered by the programs, and grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues, including all taxes, are presented as general revenues.

## **NOTES TO FINANCIAL STATEMENTS**

**JUNE 30, 2022**

### ***Note 1* Summary of Significant Accounting Policies - Continued**

#### **Basis of Presentation - Governmental Fund Financial Statements**

The fund statements provide information about the School District's funds, including Fiduciary Funds. Separate statements for each fund category (Governmental and Fiduciary) are presented. The emphasis of Governmental Fund financial statements is on major Governmental Funds, each displayed in a separate column. The following are the District's Governmental Funds.

#### **Major Funds**

- General Fund: The School District's primary operating fund. It accounts for all financial transactions not required to be accounted for in another fund.
- Capital Projects Fund - Construction: Accounts for the financial resources used for various capital projects of the School District.
- Capital Projects Fund - Buses: Accounts for the financial resources used for the purchase of buses for the School District.

#### **Non-Major Funds**

- Special Revenue Funds: These funds account for the proceeds of specific revenue sources (other than major capital projects) that are legally restricted to expenditures for specified purposes. Special revenue funds include the following:
  - Special Aid Fund: Accounts for the proceeds of specific revenue sources, such as federal, state, and local grants, legally restricted to expenditures for specified purposes, and other activities whose funds are restricted as to use. These legal restrictions may be imposed either by governments that provide the funds, or by outside parties.
  - School Lunch Fund: Accounts for revenues and expenditures in connection with the School District's food service program.
  - Miscellaneous Special Revenue Fund: Used to account for student scholarships whose funds are restricted as to use.
- Debt Service Fund: Accounts for the accumulation of resources and the payment of principal and interest on long-term general obligation debt of Governmental Activities.

Fiduciary activities are those in which the School District acts as trustee or agent for resources that belong to others. These activities are not included in the District-wide financial statements, because their resources do not belong to the School District and are not available to be used.

# ***DEPOSIT CENTRAL SCHOOL DISTRICT***

## **NOTES TO FINANCIAL STATEMENTS**

**JUNE 30, 2022**

### ***Note 1* Summary of Significant Accounting Policies - Continued**

#### **Basis of Presentation - Governmental Fund Financial Statements - Continued**

The School District reports the following Fiduciary Funds:

- Custodial Fund: Assets are held by the School District as agent for Extraclassroom Activity Funds.

#### **Measurement Focus and Basis of Accounting**

The District-wide and Fiduciary Fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash transaction takes place. Non-exchange transactions, in which the School District gives or receives value without directly receiving or giving equal value in exchange, include property taxes, grants, and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from grants and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied.

The Governmental Fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized when measurable and available. The School District considers all revenues reported in the Governmental Funds to be available if the revenues are collected within six months after the end of the fiscal year.

Expenditures are recorded when the related fund liability is incurred, except for principal and interest on general long-term debt, claims and judgments, and compensated absences, which are recognized as expenditures to the extent they have matured. General capital asset acquisitions are reported as expenditures in Governmental Funds. Proceeds of general long-term debt and acquisitions under capital leases are reported as other financing sources.

#### **Cash and Investments**

The School District's cash and cash equivalents consist of cash on hand, demand deposits, and short-term investments with original maturities of three months or less from date of acquisition. New York State law governs the School District's investment policies. Resources must be deposited in Federal Deposit Insurance Corporation (FDIC)-insured commercial banks or trust companies located within the state. Permissible investments include obligations of the United States Treasury, United States Agencies, repurchase agreements and obligations of New York State or its localities. Collateral is required for demand and time deposits and certificates of deposit not covered by FDIC insurance. Obligations that may be pledged as collateral are obligations of the United States and its agencies and obligations of the state and its municipalities and districts. Investments are stated at fair value.

## **NOTES TO FINANCIAL STATEMENTS JUNE 30, 2022**

### ***Note 1* Summary of Significant Accounting Policies - Continued**

#### **Accounts Receivable**

Accounts receivable are shown gross, with uncollectible amounts recognized under the direct write-off method. No allowance for uncollectible accounts has been provided, as it is believed that such allowance would not be material. All receivables are expected to be collected within the subsequent fiscal year.

#### **Due to/Due From Other Funds**

Eliminations have been made for amounts due to and due from within the same fund type. A detailed description of the individual fund balances at year end is provided subsequently in these notes.

#### **Inventories and Prepaid Items**

Inventories of food in the School Lunch Fund are recorded at cost on a first-in, first-out basis, or in the case of surplus food, at stated value, which approximates fair value. Purchases of inventoriable items in other funds are recorded as expenditures at the time of purchase, and are considered immaterial in amount. Prepaid items represent payments made by the School District for which benefits extend beyond year end. These payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both the District-wide and Governmental Fund financial statements. These items are reported as assets on the Statement of Net Position or Balance Sheet using the consumption method. A current asset for the prepaid amounts is recorded at the time of purchase and an expense/expenditure is reported in the year the goods or services are consumed.

Nonspendable fund balance equal to these non-liquid assets (inventories and prepaid items) has been recognized to signify that a portion of fund balance is not available for other subsequent expenditures.

#### **Capital Assets**

Capital assets are reported at actual cost. Donated assets are reported at estimated fair market value at the time received.

Capitalization thresholds (the dollar value above which asset acquisitions are added to the capital asset accounts), depreciation methods, and estimated useful lives of capital assets reported in the District-wide financial statements are as follows:

	<b>Capitalization Threshold</b>	<b>Estimated Useful Life</b>
Buildings	\$ 5,000	40 Years
Building Improvements	5,000	20-30 Years
Furniture and Equipment	5,000	5-20 Years

The School District utilizes the straight-line method of depreciation.

**JUNE 30, 2022**

### ***Note 1* Summary of Significant Accounting Policies - Continued**

#### **Vested Employee Benefits - Compensated Absences**

Compensated absences consist of unpaid accumulated annual sick leave, vacation, and sabbatical time.

Sick leave eligibility and accumulation are specified in negotiated labor contracts, and in individual employment contracts. Upon retirement, resignation or death, employees may contractually receive a payment based on unused accumulated sick leave.

School District employees are granted vacation time in varying amounts, based primarily on length of service and service position. Some earned benefits may be forfeited if not taken within varying time periods.

Consistent with GASB Statement No. 16, "Accounting for Compensated Absences," the liability is included in the District-wide financial statements. The compensated absences liability is calculated based on the pay rates in effect at year end.

In the Governmental Fund financial statements only the amount of matured liabilities is accrued within the General Fund based upon expendable and available financial resources. These amounts are expensed on a pay-as-you-go basis.

#### **Postemployment Benefits**

School District employees participate in the New York State Employees' Retirement System and the New York State Teachers' Retirement System.

In addition to providing pension benefits, the School District provides health insurance coverage and survivor benefits for retired employees and their survivors. Substantially all of the School District's employees may become eligible for these benefits if they reach normal retirement age while working for the School District. Health care benefits are provided through plans whose premiums are based on the benefits paid during the year. The cost of providing post-retirement benefits is shared between the School District and the retired employee. The School District recognizes the cost of providing health insurance by recording its share of insurance premiums as an expenditure or operating transfer to other funds in the General Fund, in the year paid.

The School District follows GASB Statement No. 75, "Accounting and Financial Reporting by Employers for Postemployment Benefits Other than Pensions." The School District's liability for other postemployment benefits has been recorded in the Statement of Net Position, in accordance with the statement. See Note 10 for additional information.

## **NOTES TO FINANCIAL STATEMENTS JUNE 30, 2022**

### ***Note 1* Summary of Significant Accounting Policies - Continued**

#### **Deferred Outflows and Deferred Inflows of Resources**

In addition to assets, the Statement of Net Position reports a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period and so will not be recognized as an outflow of resources (expense/expenditure) until then. The School District reports deferred outflows of resources related to pensions and OPEB plans in the District-wide Statement of Net Position. The types of deferred outflows of resources related to pensions and OPEB plans are described in Notes 9 and 10, respectively.

In addition to liabilities, the Statement of Net Position reports a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and will not be recognized as an inflow of resources (revenue) until that time. The School District reports deferred inflows of resources related to pensions and OPEB plans which are further described in Notes 9 and 10, respectively.

#### **Leases**

The School District determines if an arrangement is or contains a lease at inception. The School District records assets and lease obligations for leases, which are initially based on the discounted future minimum lease payments over the term of the lease. The School District uses the rate implicit in the lease agreements. In some cases the implicit rate is not easily determinable, and the School District elects to use its incremental borrowing rate in calculating present value of lease payments.

Lease term is defined as the non-cancelable period of the lease plus any options to extend the lease when it is reasonably certain that it will be exercised. For leases with a term, including renewals, of 12 months or less, no intangible lease assets or lease obligations are recorded on the Statement of Net Position and the School District will recognize short-term lease expense for these leases on a straight-line basis over the lease term.

The School District's lease agreements do not contain any material residual value guarantees or material restrictive covenants.

Amortization expense for leases is recognized on the same basis as payments on the lease liabilities and is included in the education expense function. Interest expense is recognized using the effective interest method. Variable payments, short-term rentals, and payments associated with non-lease components are expensed as incurred.

#### **Unearned Revenue**

Unearned revenues arise when resources are received by the School District before it has legal claim to them, as when grant monies are received prior to the incidence of qualifying expenditures. In subsequent periods, when the School District has legal claim to the resources, the liability for unearned revenues is removed and revenues are recorded.

## **NOTES TO FINANCIAL STATEMENTS**

**JUNE 30, 2022**

### ***Note 1* Summary of Significant Accounting Policies - Continued**

#### **Restricted Resources**

When an expense is incurred for purposes for which both restricted and unrestricted net position are available, it is the School District's policy to apply restricted funds before unrestricted funds, unless otherwise prohibited by legal requirements.

#### **Equity Classifications - District-Wide Financial Statements**

Equity is classified as net position and displayed in three components:

- Net Investment in Capital Assets: Consists of capital assets including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets.
- Restricted: Consists of resources with constraints placed on their use either by 1) external groups such as creditors, grantors, contributors, or laws or regulations of other governments; or 2) law through constitutional provisions or enabling legislation.
- Unrestricted: Consists of all other resources that do not meet the definition of "restricted" or "net investment in capital assets."

#### **Equity Classifications - Governmental Fund Financial Statements**

The School District follows GASB Statement No. 54, "Fund Balance Reporting and Governmental Fund Type Definitions," which requires classification of fund balance to reflect spending constraints on resources, rather than availability for appropriation. This approach is intended to provide users more consistent and understandable information about a Fund's net resources.

Constraints are broken into five classifications: nonspendable, restricted, committed, assigned, and unassigned. These classifications serve to inform readers of the financial statements of the extent to which the government is bound to honor any constraints on specific purposes for which resources in a fund can be spent.

- Nonspendable: Consists of assets inherently nonspendable in the current period either because of their form or because they must be maintained intact; including prepaid items, inventories, long-term portions of loans receivable, financial assets held for resale, and endowment principal.
- Restricted: Consists of amounts subject to legal purpose restrictions imposed by creditors, grantors, contributors, or laws and regulations of other governments and enforced externally; or through constitutional provisions or enabling legislation. Most of the School District's legally adopted reserves are reported here.

## **NOTES TO FINANCIAL STATEMENTS**

**JUNE 30, 2022**

### ***Note 1* Summary of Significant Accounting Policies - Continued**

#### **Equity Classifications - Governmental Fund Financial Statements - Continued**

- **Committed:** Consists of amounts subject to a purpose constraint imposed by formal action of the government's highest level of decision-making authority prior to the end of the fiscal year, and requires the same level of formal action to remove said constraint.
- **Assigned:** Consists of amounts subject to a purpose constraint representing an intended use established by the government's highest level of decision-making authority, or their designated body or official. The purpose of the assignment must be narrower than the purpose of the General Fund. In funds other than the General Fund, assigned fund balance represents the residual amount of fund balance.
- **Unassigned:** Represents the residual classification of the government's General Fund, and could report a surplus or deficit. In funds other than the General Fund, the unassigned classification should only be used to report a deficit balance resulting from overspending amounts restricted, committed, or assigned for specific purposes.

Real Property Tax Law §1318 limits the amount of unexpended surplus funds a school district can retain in the General Fund to no more than 4% of the next year's budgetary appropriations. Funds properly retained under other sections of law (i.e., reserve funds established pursuant to Education Law or GML) are excluded from the 4% limitation. The 4% limitation is applied to unrestricted fund balance (i.e., the total of the committed, assigned, and unassigned classifications), minus appropriated fund balance, amounts reserved for insurance recovery, amounts reserved for tax reduction, and encumbrances included in committed and assigned fund balance.

The Board of Education of the School District has not adopted any resolutions to commit fund balance. By resolution, the Board of Education is authorized to assign fund balance. The School District's policy is to apply expenditures against nonspendable fund balance, restricted fund balance, committed fund balance, assigned fund balance, and unassigned fund balance.

## **NOTES TO FINANCIAL STATEMENTS**

**JUNE 30, 2022**

### ***Note 1* Summary of Significant Accounting Policies - Continued**

#### **Legally Adopted Reserves**

Fund balance reserves are created to satisfy legal restrictions, plan for future expenditures or relate to resources not available for general use or appropriation. These reserve funds are established through board action or voter approval and a separate identity must be maintained for each reserve. Earnings on the invested resources become part of the respective reserve funds; however, separate bank accounts are not necessary for each reserve fund. Reserves currently in use by the School District include the following:

- **Capital Reserve (Education Law §3657):** Used to pay the cost of any object or purpose for which bonds may be issued. The creation of a Capital Reserve Fund requires authorization by a majority of the voters establishing the purpose of the reserve, the ultimate amount, its probable term and the source of the funds. Expenditure may be made from the reserve only for a specific purpose further authorized by the voters. The form for the required legal notice for the vote on establishing and funding the reserve and the form of the proposition to be placed on the ballot are set forth in §3651 of the Education Law. This reserve is accounted for in the General Fund.
- **Unemployment Insurance Reserve (GML §6-m):** Used to pay the cost of reimbursement to the State Unemployment Insurance Fund for payments made to claimants where the employer has elected to use the benefit reimbursement method. The reserve may be established by Board action and is funded by budgetary appropriations and such other funds as may be legally appropriated. Within 60 days after the end of any fiscal year, excess amounts may either be transferred to another reserve or the excess applied to the appropriations of the next succeeding fiscal year's budget. If the School District elects to convert to tax (contribution) basis, excess resources in the funds over the sum sufficient to pay pending claims may be transferred to any other Reserve Fund. This reserve is accounted for in the General Fund.
- **Employee Benefit Accrued Liability Reserve (GML §6-p):** Used to reserve funds for the payment of accrued employee benefits due an employee upon termination of the employee's service. This reserve may be established by a majority vote of the board, and is funded by budgetary appropriations and such other reserves and funds that may be legally appropriated. This reserve is accounted for in the General Fund.
- **Retirement Contributions Reserve (GML §6-r) -** Used to reserve funds for the payment of retirement contributions, due to volatility in the economic marketplace. This reserve may be established by a majority vote of the board and is funded by budgetary appropriations and such other reserves and funds that may be legally appropriated. Effective April 1, 2019, a Board may adopt a resolution establishing a sub-fund for contributions to the New York State Teachers' Retirement System. During a fiscal year, the Board may authorize payment into the subfund of up to 2% of the total covered salaries paid during the preceding fiscal year, with the total amount funded not to exceed 10% of the total covered salaries during the preceding fiscal year. The sub-fund is separately administered, but must comply with all the existing provisions of General Municipal Law §6-r. These reserves are accounted for in the General Fund.

## **NOTES TO FINANCIAL STATEMENTS**

**JUNE 30, 2022**

### ***Note 1* Summary of Significant Accounting Policies - Continued**

#### **Legally Adopted Reserves - Continued**

- Tax Certiorari Reserve (Education Law §3651.1-a) - Used to establish a reserve fund for tax certiorari and to expend from the fund without voter approval. The monies held in the reserve shall not exceed the amount which might reasonably be deemed necessary to meet anticipated judgments and claims arising out of tax certiorari proceedings. Any resources deposited to the reserve which are not expended for tax certiorari proceedings in the year such monies are deposited must be returned to the General Fund on or before the first day of the fourth fiscal year after deposit of these monies. This reserve is accounted for in the General Fund.
- Workers' Compensation Reserve (GML §6-j): Used to pay for compensation benefits and other expenses authorized by Article 2 of the Workers' Compensation Law, and for payment of expenses for administering this self-insurance program. The reserve may be established by board action and is funded by budgetary appropriations and such other funds as may be legally appropriated. Within 60 days after the end of any fiscal year, excess amounts may either be transferred to another reserve or applied to the appropriations of the succeeding fiscal year's budget. The reserve is accounted for in the General Fund.
- Mandatory Debt Service Reserve (GML §6-l) - Used to establish a reserve for the purpose of retiring the outstanding obligations upon the sale of School District property or capital improvement financed by obligations which remain outstanding at the time of sale. The funding of the reserve is from the proceeds of the sale of School District property or capital improvement. This reserve is accounted for in the Debt Service Fund.

#### **Property Taxes**

Real property taxes are levied annually by the Board of Education no later than September 1, 2021 and became a lien on November 1, 2021. Taxes were collected during the period September 1 to November 1, 2021.

Uncollected real property taxes are subsequently enforced by the Counties of Broome and Delaware. An amount representing uncollected real property taxes transmitted to the counties for enforcement is paid by the counties to the School District no later than the following April 1.

#### **Interfund Transfers**

The operations of the School District give rise to certain transactions between funds, including transfers, to provide services and construct assets. The amounts reported on the Statement of Revenues, Expenditures, and Changes in Fund Balance-Governmental Funds for interfund transfers have been eliminated from the Statement of Activities. A detailed description of the individual fund transfers that occurred during the year is provided subsequently in these notes.

## **NOTES TO FINANCIAL STATEMENTS**

**JUNE 30, 2022**

### ***Note 1* Summary of Significant Accounting Policies - Continued**

#### **Use of Estimates**

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amount of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported revenues and expenses during the reporting period. Actual results could differ from those estimates. Estimates and assumptions are made in a variety of areas, including computation of encumbrances, compensated absences, potential contingent liabilities, and useful lives of long-lived assets.

#### **New Accounting Standards**

The School District adopted and implemented the following current Statement of the GASB effective for the year ended June 30, 2022:

- GASB Statement No. 87, “Leases.”

#### **Future Changes in Accounting Standards**

- GASB has issued Statement No. 96, “Subscription-Based Information Technology Arrangements,” effective for the year ending June 30, 2023.
- GASB has issued Statement No. 101, “Compensated Absences,” effective for the year ending June 30, 2025.

The School District will evaluate the impact each of these pronouncements may have on its financial statements and will implement them as applicable and when material.

### ***Note 2* Participation in BOCES**

During the year ended June 30, 2022, the School District’s share of BOCES income amounted to \$520,822. The School District was billed \$2,608,767 for administration and program costs. Financial statements for Broome-Tioga BOCES are available from the BOCES administrative office at 435 Glenwood Avenue, Binghamton, New York 13905.

### ***Note 3* Cash, Cash Equivalents, and Investments - Custodial and Concentration of Credit Risk**

Custodial credit risk is the risk that in the event of a bank failure, the School District’s deposits may not be returned to it. While the School District does not have a specific policy for custodial credit risk, New York State statutes govern the School District’s investment policies, as discussed previously in these notes. GASB Statement No. 40 directs that deposits be disclosed as exposed to custodial credit risk if they are not covered by depository insurance, and the deposits are either uncollateralized or collateralized with securities held by the pledging financial institution’s trust department or agent, but not in the School District’s name.

# ***DEPOSIT CENTRAL SCHOOL DISTRICT***

## **NOTES TO FINANCIAL STATEMENTS JUNE 30, 2022**

**Note 3 Cash, Cash Equivalents, and Investments - Custodial and Concentration of Credit Risk - Continued**

The School District's aggregate bank balances of \$7,884,277 are either insured or collateralized with securities held by the pledging financial institution in the School District's name.

Restricted cash and investments at June 30, 2022 consisted of the following:

General Fund Reserves	\$	3,885,436
Restricted for School Lunch		240,031
Restricted for Debt Service		194,074
Restricted for Capital Projects		3,463,311
Restricted for Scholarships		32,113
<b>Total</b>	<b>\$</b>	<b>7,814,965</b>

The School District has few investments (primarily United States Treasury obligations) and chooses to disclose its investments by specifically identifying each.

The School District categorizes its fair value measurements within the fair value hierarchy established by U.S. GAAP. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs.

The School District reported Level 1 U.S. Treasury Bills at a fair value of \$1,494,580 and cost of \$1,494,123 within the General Fund.

**Note 4 Interfund Balances and Activity**

Governmental Fund interfund balances at June 30, 2022 are as follows:

	<u>Interfund Receivable</u>	<u>Interfund Payable</u>	<u>Interfund Revenues</u>	<u>Interfund Expenditures</u>
General Fund	\$ 389,576	\$ 25,313	\$ -	\$ 20,233

# **DEPOSIT CENTRAL SCHOOL DISTRICT**

## **NOTES TO FINANCIAL STATEMENTS JUNE 30, 2022**

**Note 4 Interfund Balances and Activity - Continued**

Interfund receivables and payables, other than between Governmental Activities and Fiduciary Funds, are eliminated on the Statement of Net Position.

The School District typically transfers from the General Fund to the Special Aid Fund the School District's share of the cost to accommodate the mandated accounting for the School District's share of expenditures of a Special Aid Fund project and to and from the Debt Service Fund for the payment of long-term debt. The School District also transfers funds from the Capital Reserve in the General Fund to Capital Projects Funds, as needed, to fund capital projects. Periodically, the School District transfers funds as needed to subsidize the School Lunch Fund.

The School District typically loans resources between funds for the purpose of mitigating the effects of transient cash flow issues. All interfund payables are expected to be repaid within one year.

**Note 5 Capital Assets**

Capital asset balances and activity for the year ended June 30, 2022 were as follows:

Pupil Transportation		223,368
School Lunch Program		16,798
<b>Total Depreciation Expense</b>	<b>\$</b>	<b>1,071,560</b>

**Note 6 Short-Term Debt**

The School District may issue revenue anticipation notes (RANs) and tax anticipation notes (TANs), in anticipation of the receipt of revenues. These notes are recorded as a liability of the fund that will actually receive the proceeds from the issuance of the notes. The RANs and TANs represent a liability that will be extinguished by the use of expendable, available resources of the fund. The School District did not issue or redeem any RANs or TANs during the year.

The School District may issue budget notes up to an amount not to exceed 5% of the amount of the annual budget during any fiscal year for expenditures for which an insufficient or no provision is made in the annual budget. The budget note must be repaid no later than the close of the second fiscal year succeeding the year in which the note was issued. The School District did not issue or redeem any budget notes during the year.

The School District may issue bond anticipation notes (BANs), in anticipation of proceeds from the subsequent sale of bonds. These notes are recorded as current liabilities of the funds that will actually receive the proceeds from the issuance of bonds. State law requires that BANs issued for capital purposes be converted to long-term financing within five years after the original issue date. One BAN was outstanding at June 30, 2022.

BAN activity for the year is summarized below:

Description of Issue	Interest Rate	Maturity Date	Beginning Balance	Issued	Renewed or Redeemed	Ending Balance

Interest expense related to short-term debt during the year was comprised of:

Interest Paid	\$	9,793
Less Interest Accrued in the Prior Year		(4,250)
Plus Interest Accrued in the Current Year		1,917
 <b>Total</b>	 <b>\$</b>	 <b>7,460</b>

**Note 7 Long-Term Debt**

At June 30, 2022, the total outstanding indebtedness of the School District represented 10.6% of its statutory debt limit, exclusive of building aids. Long-term debt is classified as follows:

- Serial Bonds and Statutory Installment Bonds - The School District borrows money in order to acquire land or equipment or construct buildings and improvements. This enables the cost of these capital assets to be borne by the present and future taxpayers receiving the benefit of the capital assets.

The following is a summary of the School District's long-term debt for the year ended June 30, 2022:

<u>Description of Issue</u>	<u>Issue Date</u>	<u>Final Maturity</u>	<u>Interest Rate</u>	<u>Outstanding June 30, 2022</u>
2010 Serial Bond	06/15/2010	06/15/2024	3.00%-5.00%	\$ 305,000

***Note 9*** **Pension Obligations - New York State and Local Employees' Retirement System (ERS) and the New York State Teachers' Retirement (TRS) (the Systems)**

### **Plan Descriptions and Benefits Provided**

#### **Teachers' Retirement System (TRS) (System)**

The School District participates in the New York State Teachers' Retirement System (TRS). This is a cost-sharing multiple-employer public employee retirement system. The System provides retirement benefits as well as death and disability benefits to plan members and beneficiaries as authorized by the Education Law and the Retirement and Social Security Law of the State of New York. The System is governed by a 10-member Board of Trustees. System benefits are established under New York State Law. Membership is mandatory and automatic for all full-time teachers, teaching assistants, guidance counselors, and administrators employed in New York Public Schools and BOCES who elected to participate in TRS. Once a public employer elects to participate in the System, the election is irrevocable. The New York State Constitution provides that pension membership is a contractual relationship and plan benefits cannot be diminished or impaired. Benefits can be changed for future members only by enactment of a state statute. Additional information regarding the System may be obtained by writing to the New York State Teachers' Retirement System, 10 Corporate Woods Drive, Albany, New York 12211-2395 or by referring to the NYSTRS Comprehensive Annual Financial report which can be found on the System's website at [www.nystrs.org](http://www.nystrs.org).

Tier 3 and Tier 4 members are required by law to contribute 3% of salary to the System. Effective October 2000, contributions were eliminated for Tier 3 and 4 members with 10 or more years of service or membership. Effective January 1, 2010, Tier 5 members are required by law to contribute 3.5% of salary throughout their active membership. Effective April 1, 2012, Tier 6 members are required by law to contribute between 3% and 6% of salary throughout their active membership in accordance with a salary based upon salary earned. Pursuant to Article 14 and Article 15 of the RSSL, those member contributions are used to help fund the benefits provided by the System. However, if a member dies or leaves covered employment with less than 5 years of credited service for Tiers 3 and 4, or 10 years of credited service for Tiers 5 and 6, the member contributions with interest calculated at 5% per annum are refunded to the employee or designated beneficiary.

Eligible Tier 1 and Tier 2 members may make member contributions under certain conditions pursuant to the provisions of Article 11 of the Education Law and Article 11 of the RSSL. Upon termination of membership, such accumulated member contributions are refunded. At retirement, such accumulated member contributions can be withdrawn or are paid as a life annuity.

**Employees' Retirement System (ERS) (System)**

The School District participates in the New York State and Local Employees' Retirement System (ERS). This is a cost-sharing, multiple-employer, defined benefit pension plan. The System provides retirement benefits as well as death and disability benefits. The net position of the System is held in the New York State Common Retirement Fund (the Fund), which was established to hold all net assets and record changes in plan net position allocated to the System. The Comptroller of the State of New York serves as the trustee of the Fund and is the administrative head of the System. System benefits are established under the provisions of the New York State Retirement and Social Security Law (RSSL). Once a public employer elects to participate in the System, the election is irrevocable. The New York State Constitution provides that pension membership is a contractual relationship and plan benefits cannot be diminished or impaired. Benefits can be changed for future members only by enactment of a State statute. The School District also participates in the Public Employees' Group Life Insurance Plan (GLIP), which provides death benefits in the form of life insurance. The System is included in the state's financial report as a pension trust fund. That report, including information with regard to benefits provided, may be found at [www.osc.state.ny.us/retire/publications/index.php](http://www.osc.state.ny.us/retire/publications/index.php) or obtained by writing to the New York State and Local Retirement System, 110 State Street, Albany, New York 12244.

Generally, Tier 3, 4, and 5 members must contribute 3% of their salary to the System. As a result of Article 19 of the RSSL, eligible Tier 3 and 4 employees, with a membership date on or after July 27, 1973, who have ten or more years of membership or credited service with the System, are not required to contribute. Members cannot be required to begin making contributions or to make increased contributions beyond what was required when membership began. For Tier 6 members, the contribution rate varies from 3% to 6% depending on salary. Generally, Tier 5 and 6 members are required to contribute for all years of service.

**Summary of Significant Accounting Policies**

The Systems' financial statements from which the Systems' fiduciary respective net position is determined are prepared using the accrual basis of accounting. System member contributions are recognized when due and the employer has a legal requirement to provide the contributions. Benefits and refunds are recognized when due and payable in accordance with the terms of the plan. Investments are reported at fair value. For detailed information on how investments are valued, please refer to the Systems' annual reports.

**Contributions**

The School District is required to contribute at an actuarially determined rate. The School District's contributions made to the Systems were equal to 100% of the contributions required for each year. The required contributions for the current year and two preceding Plan years were as follows:

	<u>ERS</u>	<u>TRS</u>
<b>2022</b>	<b>\$ 179,101</b>	<b>\$ 422,873</b>

**Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions**

At June 30, 2022, the School District reported the following (asset)/liability for its proportionate share of the net pension liability for each of the Systems. The net pension (asset)/liability was measured as of March 31, 2022 for ERS and June 30, 2021 for TRS. The total pension liability used to calculate the net pension (asset)/liability was determined by an actuarial valuation. The School District's proportionate share of the net pension liability was based on a projection of the School District's long-term share of contributions to the Systems relative to the projected contributions of all participating members, actuarially determined. This information was derived from reports provided to the School District by the ERS and TRS Systems.

### ***Note 9* Pension Obligations - New York State and Local Employees' Retirement System (ERS) and the New York State Teachers' Retirement (TRS) (the Systems) - Continued**

#### **Actuarial Assumptions**

The total pension (asset)/liability as of the measurement date was determined by using an actuarial valuation as noted in the table below, with update procedures used to roll forward the total pension liability to the measurement date.

Significant actuarial assumptions used in the valuations were as follows:

	<u>ERS</u>	<u>TRS</u>
Measurement Date	March 31, 2022	June 30, 2021
Actuarial Valuation Date	April 1, 2021	June 30, 2020
Investment Rate of Return	5.9%	6.95%
Salary Increases	4.4%	1.95% - 5.18%
Cost of Living Adjustments	1.4%	1.3%
Inflation Rate	2.7%	2.4%

For ERS, annuitant mortality rates are based on April 1, 2015 - March 31, 2020 System's experience with adjustments for mortality improvements based on the Society of Actuaries' Scale MP-2020. For TRS, annuitant mortality rates are based on plan member experience with adjustments for mortality improvements based on Society of Actuaries Scale MP-2020, applied on a generational basis.

For ERS, the actuarial assumptions used in the April 1, 2021 valuation are based on the results of an actuarial experience study for the period April 1, 2015 - March 31, 2020. For TRS, the actuarial assumptions used in the June 30, 2020 valuation were based on the results of an actuarial experience study for the period July 1, 2015 - June 30, 2020.

For ERS, the long term rate of return on pension plan investments was determined using a building block method in which best estimate ranges of expected future real rates of return (expected returns net of investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long term expected rate of return by weighting the expected future real rates of return by each the target asset allocation percentage and by adding expected inflation. For TRS, long-term expected rate of return on pension plan investments was determined in accordance with Actuarial Standard of Practice (ASOP) No. 27, Selection of Economic Assumptions for Measuring Pension Obligations. ASOP No. 27 provides guidance on the selection of an appropriate assumed investment rate of return. Consideration was given to expected future real rates of return (expected returns, net of pension plan investment expense and inflation) for each major asset class as well as historical investment data and plan performance. Best estimates of the arithmetic real rates of return for each major asset class included in the target asset allocation are summarized as follows:

**Discount Rate**

The discount rate used to calculate the total pension (asset)/liability was 5.9% for ERS and 6.95% for TRS. The projection of cash flows used to determine the discount rate assumes that contributions from plan members will be made at the current contribution rates and contributions from employers will be made at statutorily required rates, actuarially determined. Based on the assumptions, the Systems' fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension (asset)/liability.

**Payables to the Pension Plan**

For ERS, employer contributions are paid annually based on the System's fiscal year which ends on March 31. Employee contributions are remitted monthly. Accrued retirement contributions as of June 30, 2022 represent the projected employer contribution for the period of April 1, 2022 through June 30, 2022 based on estimated ERS wages multiplied by the employer's contribution rate, by tier. Accrued retirement contributions as of June 30, 2022 amounted to \$35,257.

For TRS, employer and employee contributions for the fiscal year ended June 30, 2022 are paid to the System in September, October, and November 2022 through a state aid intercept. Accrued retirement contributions as of June 30, 2022 represent employee and employer contributions for the fiscal year ended June 30, 2022 based on paid TRS wages multiplied by the employer's contribution rate, by tier and employee contributions for the fiscal year as reported to the TRS System. Accrued retirement contributions as of June 30, 2022 amounted to \$513,210.

### ***Note 10* Other Postemployment Benefits**

#### **General Information about the OPEB Plan**

Plan Description - The School District provides medical and Medicare Part B benefits to retired employees and their eligible dependents. The benefits provided to employees upon retirement are based on provisions in various contracts that the School District has in place with different classifications of employees. The School District acquires health insurance through a consortium known as the Broome-Tioga-Delaware Health Insurance Consortium. Benefits provided by the Consortium are administered by Blue Cross/Blue Shield. The Consortium plan covers medical and pharmaceutical costs. No assets are accumulated in a trust that meets the criteria in paragraph 4 of GASB Statement No. 75. The Plan does not issue separate financial statements since there are no assets legally segregated for the sole purpose of paying benefits under the plan.

Benefits Provided - The School District provides healthcare benefits for eligible retirees and their spouses. Benefit terms are dependent of which contract each employee falls under. The specifics of each contract are on file at the School District offices and are available upon request.

Employees Covered by Benefit Terms - At June 30, 2022, the following employees were covered by the benefit terms.

Inactive Employees or Beneficiaries	
Currently Receiving Benefit Payments	148
Inactive Employees Entitled to	
But Not Yet Receiving Benefit Payments	-
Active Employees	<u>107</u>

#### **Total OPEB Liability**

The School District's total OPEB liability of \$46,863,144 was measured as of June 30, 2022 and determined by an actuarial valuation as of July 1, 2020.

Actuarial Assumptions and Other Inputs - The total OPEB liability in the July 1, 2020 actuarial valuation was determined using the following actuarial assumptions and other inputs, applied to all periods included in the measurement, unless otherwise specified:

Long-Term Bond Rate	3.54%
Salary Increases Including Inflation	2.6%
Actuarial Cost Method	Entry Age Normal
Healthcare Cost Trend Rates	5.3% for 2021, Decreasing to an Ultimate Rate of 4.1% for Years After 2077

The Bond Buyer General Obligation 20-Bond Municipal Index was used to determine the long-term bond rate above.

Mortality rates were based on the PubT-2010 Headcount-Weighted Mortality Table for Teaching Positions and PubG-2010 Headcount-Weighted Mortality Table for Non-Teaching Positions, both generationally projected using the MP-2019 Ultimate Scale.

Termination rates were based on the percentage of employees who will terminate employment at the given age each year, for reasons other than death, or retirement.

Retirement rates are based on tables used by the New York State Teachers' Retirement System and New York State and Local Retirement System.

The actuarial assumptions used in the July 1, 2020 valuation were consistent with the requirements of GASB Statement No. 75 and Actuarial Standards of Practice (ASOPs).

## **NOTES TO FINANCIAL STATEMENTS**

**JUNE 30, 2022**

### ***Note 11* Commitments and Contingencies**

#### **Risk Financing and Related Insurance - General Information**

The School District is exposed to various risks of loss related to, but not limited to, torts; theft of, damage to, and destruction of assets; injuries to employees; errors and omissions; natural disasters. These risks are covered by commercial insurance purchased from independent third parties. Settled claims from these risks have not exceeded commercial insurance coverage for the past three years.

#### **Risk Financing and Related Insurance - Health Insurance**

The School District incurs costs related to an employee health insurance plan (Plan) sponsored by the Broome-Tioga-Delaware County Health Insurance Consortium. The Plan's objectives are to formulate, develop, and administer a program of insurance to obtain lower costs for that coverage, and to develop a comprehensive loss control program. Plan members include 15 school districts and one BOCES, with the School District bearing a proportionate share of the Plan's assets and claims liabilities. Plan members are subject to a supplemental assessment in the event of deficiencies. If the Plan's assets were to be exhausted, members would be responsible for the Plan's liabilities.

The Plan uses a reinsurance agreement to reduce its exposure to large losses on insured events. Reinsurance permits recovery of a portion of losses from the reinsurer, although it does not discharge the liability of the Plan as direct insurer of the risks reinsured.

The Plan establishes a liability for both reported and unreported insured events, which includes estimates of both future payments of losses and related claim adjustment expenses. However, because actual claims costs depend on complex factors, the process used in computing claims liabilities does not necessarily result in an exact amount. Such claims are based on the ultimate cost of claims (including future claim adjustment expenses) that have been reported but not settled, and claims that have been incurred but not reported. Adjustments to claims liabilities are charged or credited to expense in the periods in which they are made.

During the year ended June 30, 2022, the School District incurred premiums or contribution expenditures totaling \$4,017,825.

#### **Risk Financing and Related Insurance - Workers' Compensation Insurance**

The School District participates in the Workers' Compensation Self-Insurance Alliance (Plan). The Plan's objectives are to formulate, develop, and administer a program of insurance to obtain lower costs for that coverage, and to develop a comprehensive loss control program. School districts joining the Plan must remain members for a minimum of one year; a member may withdraw from the Plan after that time by forwarding a resolution passed by the School District's Board of Education prior to the end of the fiscal year.

## **NOTES TO FINANCIAL STATEMENTS**

**JUNE 30, 2022**

### ***Note 11* Commitments and Contingencies - Continued**

#### **Risk Financing and Related Insurance - Workers' Compensation Insurance - Continued**

Plan members include 15 school districts and one BOCES, with the School District bearing its proportionate share of the Plan's assets and claims liabilities. Plan members are subject to a supplemental assessment in the event of deficiencies. If the Plan's assets were to be exhausted, members would be responsible for the Plan's liabilities.

The Plan uses a reinsurance agreement to reduce its exposure to large losses on insured events. Reinsurance permits recovery of a portion of losses from the reinsurer, although it does not discharge the liability of the Plan as direct insurer of the risks reinsured.

The Plan establishes a liability for both reported and unreported insured events, which includes estimates of both future payments of losses and related claim adjustment expenses. However, because actual claims costs depend on complex factors, the process used in computing claims liabilities does not necessarily result in an exact amount. Such claims are based on the ultimate cost of claims (including future claim adjustment expenses) reported but not settled, and claims incurred but not reported. Adjustments to claims liabilities are charged or credited to expense in the periods in which they are made.

During the year ended June 30, 2022, the School District incurred premiums or contribution expenditures totaling \$75,394.

#### **Other Items**

The School District has received grants which are subject to audit by agencies of the state and federal governments. Such audits may result in disallowances and a request for a return of funds. Based on prior audits, the School District's administration believes disallowances, if any, will be immaterial.

**Deficit Fund Balance**

At June 30, 2022, the Capital Projects Fund - Buses had a deficit fund balance of \$782,268. This deficit will be eliminated as short-term debt is redeemed or converted to long-term bond financing.

**Deficit Net Position**

At June 30, 2022, the District-wide Statement of Net Position had an unrestricted deficit of \$48,841,961. This is primarily the result of the requirement to record net other postemployment benefit liability with no requirement or mechanism to fund this liability (see Note 10). The deficit is not expected to be eliminated during the normal course of operations.

## **NOTES TO REQUIRED SUPPLEMENTARY INFORMATION JUNE 30, 2022**

### ***Note 1* Budgetary Procedures and Budgetary Accounting**

The School District administration prepares a proposed budget for approval by the Board of Education (Board) for the General Fund for which a legal (appropriated) budget is adopted. The voters of the School District approved the proposed appropriation budget for the General Fund.

Appropriations are adopted at the program line level. Appropriations established by the adoption of the budget constitute a limitation on expenditures (and encumbrances), which may be incurred. Appropriations lapse at the end of the fiscal year unless expended or encumbered. Encumbrances will lapse if not expended in the subsequent year. Supplemental appropriations may occur subject to legal restrictions, if the Board approves them because of a need that exists which was not determined at the time the budget was adopted.

The following supplemental appropriations occurred during the year:

Adopted Budget	\$ 17,764,432
Carryover Encumbrances	68,371
Original Budget	<u>17,832,803</u>
Donations	<u>1,111</u>
<b>Final Budget</b>	<b><u>\$ 17,833,914</u></b>

Budgets are adopted annually on a basis consistent with U.S. GAAP. Appropriations authorized for the year are increased by the amount of encumbrances carried forward from the prior year.

Annual legal budgets are not adopted for the Special Revenue Funds (Special Aid, School Lunch, and Miscellaneous Special Revenue Fund). Budgetary controls for the Special Aid Fund are established in accordance with the applicable grant agreements. Special Aid Funds may also cover a period other than the School District's fiscal year. Budgetary controls for School Lunch Fund are established internally.

### ***Note 2* Reconciliation of the Budget Basis to U.S. GAAP**

No adjustment is necessary to convert the General Fund excess of revenues and other sources over expenditures and other uses on the U.S. GAAP basis to the budget basis. Encumbrances, if present, are shown in a separate column and are not included in the actual results at June 30, 2022.

### ***Note 3* Schedule of Changes in the School District's Total OPEB Liability and Related Ratios Changes in Demographics**

From July 1, 2018 to July 1, 2020, overall membership decreased from 259 to 255. The number of active members decreased from 107 to 92, and the number of inactive members decreased from 152 to 163. The average age of active members decreased slightly from 46.6 to 46.1, and the average age of retired members remained the same at 71.8.

## **NOTES TO REQUIRED SUPPLEMENTARY INFORMATION JUNE 30, 2022**

### ***Note 3* Schedule of Changes in the School District's Total OPEB Liability and Related Ratios - Continued**

#### **Changes of Assumptions**

Medicare Part B reimbursement for spouses of teachers decreased from 50% to 0%. This decreased the accrued liability by about \$0.1 million (0.3%). The actuarial valuation reflects the adoption of the Pub-2010 Mortality Table (from RP-2014 Adjusted to 2006 Total Dataset Mortality Table) with generational projection of future improvements per the MP-2019 Ultimate Scale. Additionally, retirement and turnover rates were updated to reflect the assumptions used in the 2020 Annual Report to the Comptroller on Actuarial Assumptions for the New York State and Local Retirement System. The valuation of future implementation of the excise tax on medical benefits is no longer used, as it has been officially repealed as of December 20, 2019. The combined impact of these assumption changes was an increase in the accrued liability of \$1.7 million (4.2%).

Given the substantial uncertainty regarding the impact of COVID-19 on plan costs, including whether the pandemic will increase or decrease costs during the term of the projections, the decision has been made to not make an adjustment in the expected plan costs. It is possible that the COVID-19 pandemic could have a material impact on the projected costs.

The discount rate has been changed to 3.54% (from 2.16%) since this is the discount rate that will be used to measure the total OPEB liability for the purposes of GASB Statement No. 75. This increased the accrued liability by \$12.4 million (28.9%) after the inclusion of all assumption changes described above.

#### **Changes in Benefit Terms**

There were no significant legislative changes in benefits for the April 1, 2021 actuarial valuation.

#### **Changes of Assumptions**

2021: The demographic assumptions (pensioner mortality and active member decrements) were updated based on the System's experience from April 1, 2015 through March 31, 2020, the mortality improvement assumption was updated to Society of Actuaries Scale MP-2020, inflation was updated to 2.7%, cost-of-living updated to 1.4%, salary scale updated to 4.4%, and the interest rate assumption was reduced to 5.9% for the April 1, 2020 actuarial valuation.

2019: The salary scales for both plans used in the April 1, 2018 actuarial valuation were increased by 10%.

2016: There were changes in the economic (investment rate of return, inflation, COLA, and salary scales) and demographic (pensioner mortality and active member decrements) assumptions used in the April 1, 2015 actuarial valuation.

#### **Methods and Assumptions Used in Calculations of Actuarially Determined Contributions**

The April 1, 2020 actuarial valuation determines the employer rates for contributions payable in fiscal year 2022. The following actuarial methods and assumptions were used:

Actuarial Cost Method	The System is funded using the Aggregate Cost Method. All unfunded actuarial liabilities are evenly amortized (as a percentage of projected pay) over the remaining worker lifetimes of the valuation cohort.
Asset Valuation Period	5-year level smoothing of the difference between the actual gain and the expected gain using the assumed investment rate of return.
Inflation	2.5%
Salary Scale	4.5% in ERS, indexed by service.
Investment Rate of Return	6.8% compounded annually, net of investment expenses, including inflation.
Cost of Living Adjustments	1.3% annually.
Active Member Decrements	Based upon FY 2016-2020 experience.
Pensioner Mortality	Gender/Collar specific tables based upon FY2016-2020 experience.
Mortality Improvement	Society of Actuaries' Scale MP-2019.

### **Changes in Benefit Terms**

None.

### **Changes of Assumptions**

Actuarial assumptions are revised periodically to reflect more closely actual, as well as anticipated, future experience. The actuarial assumptions were revised and adopted by the Retirement Board on October 29, 2015 and first used in the 2016 determination of the Total Pension Liability. Current proposed assumptions are used in the 2021 determination of the Total Pension Liability.

The System's long-term rate of return assumption for purposes of the NPL is 6.95%, effective with the 2021 actuarial valuation. For the 2020 and 2019 actuarial valuations, the System's long-term rate of return assumption was 7.10%. For the 2018 and 2017 actuarial valuation, the System's long-term rate of return assumption was 7.25%. For the 2016 actuarial valuation, the System's long-term rate of return assumption was 7.50%. Prior to the 2016 actuarial valuation, the System's long-term rate of return was 8.0%.

The System's assumed annual inflation rate is 2.40% for 2021 and 2.20% for 2019 and 2020. For the 2018 and 2017 actuarial valuations, the System's annual inflation assumption was 2.25%. For the 2016 actuarial valuation, the System's annual inflation assumption was 2.5%. Prior to the 2016 actuarial valuation, the System's annual inflation assumption was 3.0%.

Effective with the 2019 actuarial valuation, COLAs are projected to increase at a rate of 1.30% annually. Effective with the 2015 actuarial valuation, COLAs were projected to increase at a rate of 1.50% annually. Prior to the 2015 actuarial valuation, COLAs were projected to increase at a rate of 1.625% annually.

Effective with the 2021 actuarial valuation, the assumed scale for mortality improvement was changed from MP2019 to MP2020. Effective with the 2020 actuarial valuation, the assumed scale for mortality improvement was changed from MP2018 to MP2019. Effective with the 2019 actuarial valuation, the assumed scale for mortality improvement was changed from MP-2014 to MP-2018.

#### **Methods and Assumptions Used in Calculations of Actuarially Determined Contributions**

The actuarially determined contribution rates in the Schedule of School Districts' Contributions are calculated as of June 30, two years prior to the end of the fiscal year in which contributions are reported. The following actuarial methods and assumptions were used to determine the School District's contributions in 2021. For assumptions and plan provisions used in contributions reported for years prior to 2021, refer to the Annual Actuarial Report for two years prior to the end of the fiscal year in which contributions are reported.

**Actuarial Cost Method**                      The System is funded in accordance with the Aggregate Cost Method, which does not identify nor separately amortize unfunded actuarial liabilities. Costs are determined by amortizing the unfunded present value of benefits over the average future working lifetime of active plan members, which currently for NYSTRS is approximately 13 years.

**Asset Valuation Method**                      Five-year phased-in deferred recognition of each year's net investment income/loss in excess of (or less than) the assumed valuation rate of interest at a rate of 20% per year, until fully recognized after five years.

**Inflation**    2.20%

**Projected Salary Increases**                      Rates of increase differ based on service. They have been calculated based upon recent NYSTRS member experience.

<u>Service</u>	<u>Rate</u>
5	4.72%
15	3.46%
25	2.37%
35	1.90%

**Investment Rate of Return**                      7.10% compounded annually, net of investment expenses, including inflation.

**Cost of Living Adjustments**                      1.3% compounded annually.

**INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL  
OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS  
BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED  
IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS***

Board of Education  
Deposit Central School District  
Deposit, New York

We have audited, in accordance with the auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States (*Government Auditing Standards*), the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information the Deposit Central School District (the School District) as of and for the year ended June 30, 2022, and the related notes to the financial statements, which collectively comprise the School District's basic financial statements, and have issued our report thereon dated October 13, 2022.

**Report on Internal Control Over Financial Reporting**

In planning and performing our audit of the financial statements, we considered the School District's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the School District's internal control. Accordingly, we do not express an opinion on the effectiveness of the School District's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses.

**Report on Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the School District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

**Purpose of This Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the School District's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the School District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Respectfully submitted,

**INDEPENDENT AUDITORS' REPORT ON COMPLIANCE FOR EACH  
MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE  
REQUIRED BY UNIFORM GUIDANCE**

Board of Education  
Deposit Central School District  
Deposit, New York

**Report on Compliance for Each Major Federal Program**

**Opinion on Each Major Federal Program**

We have audited Deposit Central School District's (the School District) compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of the School District's major federal programs for the year ended June 30, 2022. The School District's major federal programs are identified in the summary of auditors' results section of the accompanying Schedule of Findings and Questioned Costs.

In our opinion, the School District, complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2022.

**Basis for Opinion on Each Major Federal Program**

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America (GAAS); the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States (*Government Auditing Standards*); and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the Auditors' Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of the School District and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal program. Our audit does not provide a legal determination of the School District's compliance with the compliance requirements referred to above.

### **Responsibilities of Management for Compliance**

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules and provisions of contracts or grant agreements applicable to the School District's federal programs.

### **Auditors' Responsibilities for the Audit of Compliance**

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on the School District's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS, *Government Auditing Standards*, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material, if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about the School District's compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with GAAS, *Government Auditing Standards*, and the Uniform Guidance, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the School District's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of the School District's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of the School District's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

**Other Matters**

The results of our auditing procedures disclosed instances of noncompliance which are required to be reported in accordance with the Uniform Guidance and which are described in the accompanying Schedule of Findings and Questioned Costs as item 2022-001. Our opinion on each major federal program is not modified with respect to this matter.

*Government Auditing Standards* requires the auditor to perform limited procedures on the School Districts’ response to the noncompliance findings identified in our audit described in the accompanying Schedule of Findings and Questioned Costs. The School Districts’ response was not subjected to the other auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the response.

**Report on Internal Control Over Compliance**

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the Auditors’ Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

Respectfully submitted,

## **NOTES TO SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS JUNE 30, 2022**

***Note 1***     **Basis of Presentation**

The accompanying Schedule of Expenditures of Federal Awards presents the activity of all Federal awards programs administered by the Deposit Central School District, an entity as defined in Note 1 to the Deposit Central School District's basic financial statements. Federal awards received directly from federal agencies, as well as federal awards passed through from other government agencies, are included on the Schedule of Expenditures of Federal Awards.

***Note 2***     **Basis of Accounting**

The basis of accounting varies by federal program consistent with the underlying regulations pertaining to each program. The information is presented in accordance with the requirements of Title 2 U.S. *Code of Federal Regulations* (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Therefore, some amounts presented in this schedule may differ from amounts presented in, or used in, preparation of the financial statements.

***Note 3***     **Indirect Costs**

Indirect costs are included in the reported expenditures to the extent they are included in the federal financial reports used as the source for the data presented. The Deposit Central School District has elected not to use the 10% de minimis indirect cost rate allowed under Uniform Guidance.

***Note 4***     **Matching Costs**

Matching costs, such as the Deposit Central School District's share of certain program costs, are not included in the reported expenditures.

***Note 5***     **Non-Monetary Federal Program**

The Deposit Central School District is the recipient of a Federal award program that does not result in cash receipts or disbursements termed a "non-monetary program." During the year ended June 30, 2022, the Deposit Central School District received \$26,006 worth of commodities under the National School Lunch Program (ALN #10.555).

***Note 6***     **Subrecipients**

No amounts were provided to subrecipients.

***Note 7***     **Other Disclosures**

No insurance is carried specifically to cover equipment purchased with Federal Funds. Any equipment purchased with Federal Funds has only a nominal value and is covered by the School District's casualty insurance policies.

There were no loans or loan guarantees outstanding at year end.

## **SCHEDULE OF FINDINGS AND QUESTIONED COSTS FOR THE YEAR ENDED JUNE 30, 2022**

### **Section II Financial Statement Finding**

None.

### **Section III Federal Award Findings and Questioned Costs**

#### **10.553, 10.555, 10.559 - Child Nutrition Cluster**

##### **2022-001 Net Cash Resources**

Condition: At June 30, 2022, net cash resources in the School Lunch Fund exceeded the allowable limit of cash by \$133,286.

Criteria: The school food authority shall limit its net cash resources to an amount that does not exceed 3 months' average expenditures for its School Lunch Fund or such other amount as may be approved by the New York State agency in accordance with 7 CFR §210.19(a).

Cause: Although expenditures exceeded revenues by \$53,357 in the School Lunch Fund for the year ended June 30, 2022, this amount was less than the net income of \$340,375 in the school lunch fund for the year ended June 30, 2021.

Effect: The School District is not in compliance with 7 CFR §210.19(a).

Repeat Finding: The finding is a repeat of finding 2021-001 from the prior year.

Recommendation: We recommend the School District review its net cash resources in the School Lunch Fund and develop a plan to reduce them to an allowable amount.

Management Response: The School District agrees with condition, cause, and recommendation.
