

Deposit Central School

A Community School

Our Community

The Deposit Central School District is fortunate to receive a Community Schools grant from the federal government. Through this grant, Deposit CSD has partnered with Binghamton University to launch a Community Schools model that will provide academic and social supports to help all of our students succeed. The Community Schools model brings community agencies and schools together to develop a mutually enriching relationship that benefits not only our students, but the community as a whole. Through this program, we will offer activities for students of all ages as well as opportunities for adults.

Our Promise

Deposit’s promise is to help build a foundation for academic excellence and successful citizenship. We believe all students and educators are continuously learning. We believe a safe and caring environment maximizes learning. We believe highly qualified educators are catalysts for effective learning. We believe our students’ cultural and linguistic backgrounds are assets to our school. We believe achieving common goals requires cooperation, communication and commitment between students, parents and the school community.

Community Schools

A NEW WAY OF TACKLING OLD PROBLEMS

Community schools provide opportunities for children, families and communities. Partners integrate education, health, basic needs, tutoring, after-school programs and more to ensure kids are on track to succeed in school.
